

ISLANDS THAT MAKE UP THE STATE OF HAWAII (THE BIG ISLAND IS CALLED HAWAII)

We first visited Lahaina in Maui

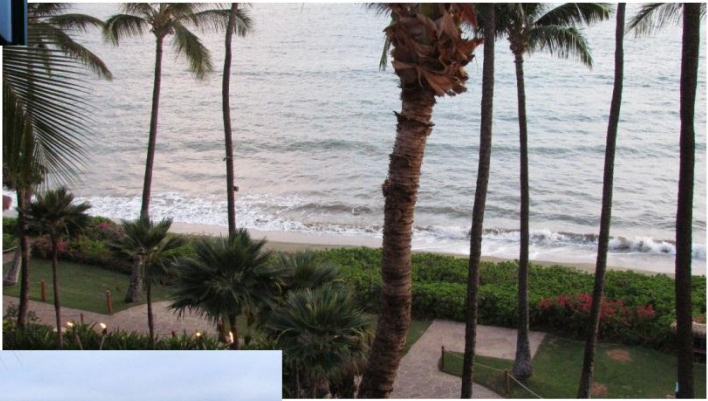

We flew into Kahului Airport in Maui, rented a 4-door jeep & drove on mountainous roads (many times one-lane and/or dirt only) to enjoy the views. This drive took several hours to get to our destination.

Jason read about a place that sells the best banana bread on the planet. So on our drive we stopped at this green shack (see picture).

our suite was on a corner with 2 beautiful views... mountain or ocean

Slept with open, screened doors listening to the waves of the ocean

Breakfast Buffet at the Swan Court overlooking waterfalls and white swans (one black swan). There was a shopping mall within the complex, as well as an atrium, loaded with plants, that housed penquins.
